

At St Margaret's C of E Primary school we have recently updated our Eco code. Our code encourages children to inhabit 'green' behaviours from a young age. Eco-codes are displayed in every classroom in the school and the teachers regularly refer to them when reminding the children about making the right choices.

Through regular contact with parents in the form of newsletters, questionnaires and help with themed days, our long term aim is to encourage children to help make small changes in their home environment to help save the worlds resources.

## ECO CODE

**O**ur world needs to be looked after

**U**se water only when needed

**R**ecycle or compost waste

**W**e need to look after our plants and animals

**O**ur break time snacks should be nutritious

**R**emember to switch off electricity when not in use

**L**et's try walking or cycling to school at least once a week

**D**on't drop litter and pick up litter when you see it
